Texas Star International is the sole distributor of the Dennington Safety Harness. The Dennington Safety Harness is the only harness that meets the Federal OSHA standards/specifications concerning personal protection equipment and fall protection. UL Classified in accordance with ANSI 2359.1-2007 and OSHA 29 CFR 1926.502 (d).

Our Safety Harness System:

- System includes Safety Harness, Shock Absorber, and two Built in Lanyards.
- **The only product ever endorsed by the International Ironworkers Union.**
- There is no need to tie off over the top of your head like other systems **(always be in compliance)**.
- Shock absorber engages immediately helping to eliminate slamming effect and whiplash.
- Virtually eliminates suspension trauma by **keeping you vertical** after a fall which allows for a **longer time for rescue and recovery**.
- Works as confined space and/or emergency rescue harness.
- Built in double lanyards allow 100% tie off and will prevent ejection from an aerial lift.
- Up to 8 1/2' shorter fall distance.

Standard Universal Harness

- This system is the unit for workers that don't carry tool belts or other equipment.
- Can be used with other safety equipment.

Tradesman Harness

- Padded tool belt added to safely carry your equipment.
- Tool belt keeps hands free for climbing.
- Can be used with other safety equipment.

Four separate weight classes (Small: 120-160 lbs; Med 160-220 lbs; Large 220-300 lbs; XLarge over 300 lbs). Special order over 300 lbs.
